VOTE

FOR A BETTER

TRANSPORTATION SYSTEM

FACT We have among the worst commute times in North America, and they're only getting worse

FACT There's a plan underway to tackle congestion on our roads and subways, but we need new money to fund it

FACT No new major roads, subways, or transit lines will be built without funding from the next Premier of Ontario

Call, email or tweet your **LOCAL MPP CANDIDATES** to ask:

- 1** How do you plan to fund the next wave of transportation improvements?
- 2** How can you guarantee that money will be there for the long term and projects actually get done?
- 3** How will you improve my commute tomorrow while we wait for long-term projects to happen?
